**A MESSAGE FROM
THE COMMANDING OFFICER
NAVY ENVIRONMENTAL HEALTH CENTER**

Dear Workshop Participant,

On behalf of the Navy Environmental Health Center (NEHC) staff, it is a pleasure to welcome you to Chesapeake and Virginia Beach, Virginia and to the Forty-Second Navy Occupational Health and Preventive Medicine Workshop in conjunction with the Eighth Annual Independent Duty Corpsmen Conference and the Fourth Annual Combined Operational and Aeromedical Problems Course.

The theme for this year's Workshop, **Forging the Future Through Prevention**, forms the framework for our multidisciplinary program of outcome-focused, operationally oriented public health programs in the areas of occupational health, preventive medicine, health promotion, and operational medicine. Prevention is a key element of Force Health Protection – essential to maintaining a Healthy and Fit Force and minimizing casualties in both deployed and non-deployed environments. Given this direct link to the war fighter, we in the Prevention Community must continually seek innovative ways to monitor and protect the health of those we serve over the full range of current and future threats. We hope that this Workshop will provide the opportunity to enhance our Force Health Protection capability – both individually and collectively.

We are particularly pleased to offer you an opportunity to network with and learn from not only your colleagues in your professional discipline but also the other health and safety professionals who are attending. We believe that the Opening Session, multidisciplinary scientific sessions, and social events, combined with community-specific presentations, will facilitate easy interaction and networking between all specialties during the Workshop.

I encourage you to take advantage of this opportunity to share the latest and greatest from our respective fields, renew old acquaintances, and meet new shipmates. If you have questions, concerns, or suggestions about the Workshop, please feel free to contact any Navy Environmental Health Center staff member onsite during the Workshop.

D. M. SACK
Captain, Medical Corps
United States Navy
Commanding Officer

Registration

REMINDER: Registration will be closed for Opening Ceremonies on 14 May 2001, 0800 - 1200

Workshop attendees are required to check-in at one of the Workshop registration areas. The 2002 Workshop will have two registration areas to serve you. There will be a registration area at the Chesapeake Conference Center in the Monroe Room and a registration area at The Founders Inn in the Patrick Henry Room. Attendees who pre-registered for the Workshop by mail, electronically, or by fax will only have to pick up their Workshop information packet to include the Workshop Program, and identification badge. Attendees who pre-registered for courses will have received course approval/confirmation. There will be computers available for attendees to enter, update, or change course and session selections in the registration areas. CEU/CME credit will be done electronically this year. At the end of the conference you may validate courses/sessions you attended and print your own certificate(s). This can be done on sight in the registration areas or from any internet capable computer. Forms will also be available in the registration areas for those who cannot validate course attendance on-line.

There is no registration fee for the Forty-Second Navy Occupational Health and Preventive Medicine Workshop, the Eighth Annual Independent Duty Hospital Corpsmen Conference, or the 4th Annual Combined Operational and Aeromedical Problems Course. Please see the schedule below for hours of registration.

Your cooperation in officially registering for the Workshop is critical to its success and future presentations. The Workshop must be approved each year by the Bureau of Medicine and Surgery, and approval is directly dependent on the Navy Environmental Health Center being able to demonstrate that the Workshop provides continuing professional education to a significant number of Navy personnel in the occupational health, preventive medicine, and health promotion communities. For these reasons, **registration is requested even for people attending only part of the Workshop**, or who live in the Chesapeake/Virginia Beach area and will not be staying in Founders Inn and the Chesapeake Conference Center. In addition, registering for the Workshop is the only way to receive your Course Attendance and CEC Sheet, which will be used to record continuing education credits.

IDC CORE INTERDISCIPLINARY SESSION 3

1 Day(s)

Location: Holiday Inn – Lakeside Ballroom

Time: 0800 – 1150

Objective: Describe current issues in the IDC community dealing with the current issues in Orthopedic Medicine and Practicum in the treatment and diagnosis of ankle, knee, spine, hand, upper extremities, and physical therapy at sea and in the Operational Environment.

<u>Time</u>	<u>Topic</u>	<u>Speaker(s)</u>
0800 - 0850	IDC Orthopedic Medicine Lecture (diagnosis and treatment of Upper Extremities)	LCDR W. SUKOVICH, MC, USN
0900 - 0950	IDC Orthopedic Medicine Lecture (diagnosis and treatment of Spinal injuries)	LCDR W. SUKOVICH, MC, USN
1000 - 1050	IDC Orthopedic Medicine Lecture (diagnosis and treatment of Knee and Ankle Injuries)	LCDR W. SUKOVICH, MC, USN
1100 - 1150	IDC Physical Therapy at Sea	LT J. J. GUARNERI, MSC, USN

Independent Duty Corpsman

Session No. **20037**

IDC ORTHOPEDIC MEDICINE PRACTICUM (UPPER EXTREMITIES)*

1 Day(s)

Location: Holiday Inn – Lake Christopher Room

Time: 1300 – 1350

Objective: Demonstrate proficiency in diagnosis, treatment, and prevention of upper extremities injuries in the operational setting.

<u>Time</u>	<u>Topic</u>	<u>Speaker(s)</u>
1300 - 1350	IDC Orthopedic Medicine Practicum (Upper Extremities) (*This is a fifty minute session which is repeated on the same day)	LCDR W. SUKOVICH, MC, USN

2002 CONFERENCE EXERCISE SESSIONS

March 14 – 22, 2002

EXERCISE CLASS DESCRIPTIONS:

All classes will be conducted at the Founders Inn Fitness Center (FIFC). **Exercise class schedules will be posted at the FIFC front registration desk.**

**** Body Blast - Body Sculpting with Tricia:** Enjoy this innovative muscular fitness exercise program that utilizes resistance tubing as the primary exercise tool. This body sculpting exercise session will assist in conditioning all primary upper and lower body muscle groups. These exercises are excellent for muscular conditioning in confined spaces and may be applicable to physical training programs within the Fleet and Fleet Marine Force. Instructed by Ms. Tricia Baglio, ACE Certified Instructor. **Sunday, March 17, 0900 - 1000... ONLY ONE CLASS OFFERED!**

Aqua Aerobics: A wonderful water workout for the unconditioned or competitive athlete, cross-trainer, and all exercise enthusiasts! Everyone is welcome, and no swimming skills are required.

Training and Conditioning Class: "T&C" is designed to challenge and train class participants of cardiovascular and muscular systems through the use of stationary bikes, aerobic calisthenics, and a variety of strength exercises. This class is for people of all ages and fitness levels.

Step Aerobics: Popular with exercise enthusiast nationwide! The step platform is used to develop lower body strength while coordinated arm movements target the upper body.

Physical Training: When you're ready to kick it up a notch, this class, also known as "PT" is the one! A high intensity, hardworking, and nonstop energetic class. "PT" is based on Navy Seal training.

Cardio Kickboxing (KIBO): Are you ready for a high energy class guaranteed to excite, motivate and increase your heart rate? This class is an excellent calorie burner!

ISOFLEX: Are you tight as a drum? Isoflex incorporates stretches of all major muscle groups and exercises to strengthen the abdominal, back, and hip areas.

Available to conference attendees at no cost. Just sign in at the Fitness Center Front Desk at the Founders Inn!
